

Liebe E-Growers

We – the Juicy Fields AG Team – turn to you

I'm Birgit-Elisabeth, I'm a coach and consultant.

Since mid-June, the Board of JuicyFields AG has commissioned me as Consultant & CFO in the context of BAFIN's inquiries to Juicy Holdings B.V., to support the process of clarifying and answering the questions. For this purpose, the owners and operators of the platform juicyfields.io (Paul Bergolts, Robert Laibach, Alex Vaimer, Vasily Kandinski, Alan Glanse, Erika Misela) were asked several times to provide information and to take into account the regulations of the BAFIN or to shut down the website, which is associated with the Juicy Holdings B.V. in the imprint.

Instrumentalization and abuse

Many e-growers will have noticed that since Monday, 11. July 2022 many people who were previously named on the platform have disappeared and you can no longer log in. Likewise, instead of the previous company Juicy Holdings B.V. replaced by the company LCmed and now currently the company JuicyFields AG.

Since Monday, July 11, 2022, the platform juicyfields.io has been changed several times and the board of JuicyFields AG and myself have been published there by name with personal data. This is an abuse and serves to deceive you e-growers.

False statements are spread on the Internet on the platform juicyfields.io and via social media.

We

Dr Robert Müller

Stefan Graf von Luxburg

Thomas Stieger

Birgit-Elisabeth Neumann

have never had anything to do with the platform.

For more than 2 months, JuicyFields AG has been trying to find out whether the platform to which we never had access is legally correct. Juicy Holdings B.V. should only act as an organizational unit for the growers and supportively.

Friedrich Graf von Luxburg, Abogado, never had a lawyer's mandate with the JuicyFields Group and is not an in-house lawyer as falsely reported.

Now it turns out that the owners and operators of the platform juicyfields.io (Paul Bergolts, Robert Laibach, Alex Vaimer, Vasily Kandinski, Alan Glanse, Erika Misela) have operated accounts with the banks through forgery of documents.

In concrete terms, this means that the accounts for Juicy Holdings B.V. have been opened on behalf of the authorized signatory Dr. Robert Müller. Both the signature, telephone numbers and email address of Dr. Robert Müller were forged and Dr. Robert Müller never had access

to these relationships, to which funds of the platform juicyfields.io have been deposited or paid out.

What will we do in order to clarify the situation?

We will file criminal charges against the owners and operators of the platform juicyfields.io (Paul Bergolts, Robert Ljubljana, Alex Vaimer, Vasily Kandinski, Alan Glanse, Erika Misela), as well as against the iSX Payment Services Bank in Cyprus and UAB Violet in Vilnius, Lithuania.

We will also take action against false reports and the publication of personal data on the Internet with criminal charges.

E-Growers meldet Euch bei abuse@juicyfields.ag

We want to support you in the clarification and take tough action against the owners and operators (Paul Bergolts, Robert Laibach, Alex Vaimer, Vasily Kandinski, Alan Glanse, Erika Misela) and against the banks to secure remaining funds in the accounts and possible claim for damages.
